LILY OF THE VALLEY

Too well known to need any special description. Everyone knows their value for outdoor blooming, but all do not realize that their sprays of fairy bells can be obtained in winter just as easily. If you wish them for Easter, start them in February. We can supply the bulbs all winter. Price, 5 cents each, 50 cents per dozen.

IRIS

(Flowering Flag—Fleur-de-Lis)

GERMAN IRIS

These magnificent Iris are among the most beautiful of our summer-flowering plants, and are becoming more popular every season. They commence blooming about the middle of June, and continue for five or six weeks. While the Iris succeed in almost any soil and condition, they delight in a rich, deep, moist position, and should be abundantly supplied with manure and water. Price, 10 cents each, twelve for \$1.00.

IRIS HISPANICA—Spanish Iris.

This is a most charming dwarf Iris, suitable for planting in beds or for pot culture. They furnish a most brilliant mass of color, and nothing more effective can be planted in the border. Flowers like beautiful Orchids.

Chrysolora—Yellow; rich in coloring and marking.

Darling—Dark blue; very fine.

Blanche Superbe—White; lily-like.

Louise—Sky-blue, with pearl-gray shading.

Price, three for 5 cents, 20 cents per dozen.

Mixed Spanish Iris—Price, 15 cents per dozen, \$1.00 per 100.

JAPANESE IRIS

(Iris Kämpferi Grandiflora)

These magnificent Iris are among the most beautiful of our summer-flowering plants, and are becoming more popular every season. They commence blooming about the middle of June, and continue for five or six weeks. Many of the flowers measure from ten to twelve inches in diameter, and rival the Orchids in their rich colorings. The prevailing colors are white, crimson, rose-lilac, lavender, violet and blue. Each flower usually contains several shades, while a golden-yellow blotch at the base of the petals intensifies the wealth of coloring. While the Iris succeeds in almost any soil and condition, it delights in a rich, deep, moist position. Price, double and single flowered named varieties, 25 cents each, postpaid; ten distinct sorts for \$2.00 by express.

ENGLISH IRIS

Large, handsome flowers, with rich purple, blue and lilac colors predominating; grows eighteen to twenty inches high; perfectly hardy; mixed varieties. Price, 4 cents each, 35 cents per dozen.

PEACOCK IRIS

(Iris Pavonia)

This beautiful Iris is very attractive. It is a sky-blue color, with a peacock eye of dark blue on each side of the petals. It is certainly a gem. Price, two for 5 cents, 25 cents per dozen.

FINE MIXED GLADIOLI

Our mixed Gladioli embrace a magnificent variety of beautiful colors, all the poorer sorts having been discarded when in flower. The spikes of bloom, richness and brilliancy of color are out of all proportion to the trifling cost. Price, extra fine mixed, of all colors, three for 10 cents, 30 cents per dozen, or \$2.00 per 100, postpaid; by express, \$1.75 per 100.

IXIAS

The Ixias produce their beautiful flowers in spikes, and are of the most dazzling and brilliant colors. For pot culture in the house they give great satisfaction. Plant in October (six to eight in a five-inch pot) in sandy loam one inch deep. Price, three for 5 cts., 15 cts per doz.

SPARAXIS

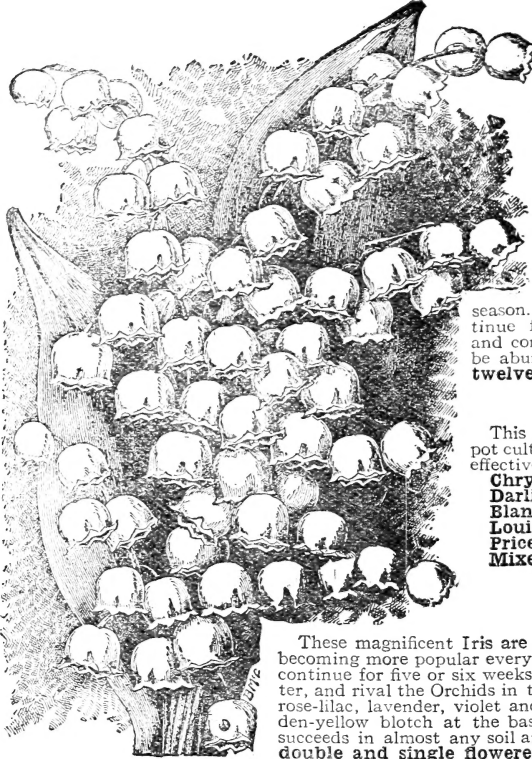

A beautiful class of bulbs, allied to the Ixias and requiring the same treatment, producing spikes of flowers of the most exquisite and brilliant colors. Mixed varieties. Cultivate as Ixias. Price, three for 5 cents, 15 cents per dozen.

Japanese Iris.

Peacock Iris.

OUR COVER ILLUSTRATIONS

BEAUTIFUL DOUBLE HERBACEOUS PEONIES

The wonderful improvements made during recent years in these old-fashioned, hardy plants have made them immensely popular. After they are once planted, they require little attention and care, thriving almost anywhere, and are absolutely hardy everywhere, requiring no protection whatever, even in the most severe climate. They do best in good, rich soil and an open, sunny position, but this is not absolutely necessary. They like a liberal supply of water during their growing season. The abundance and wealth of the gorgeous flowers which they produce are sufficient to satisfy the most enthusiastic, their flowers rivaling the finest roses in size, form and coloring. They are not troubled with insect pests or disease of any kind, and, once planted, they take care of themselves, increasing in beauty each year. **We offer herewith some of the newest and most beautiful varieties in cultivation.**

THE OLD-FASHIONED PEONIES OF OUR GRANDMOTHER'S GARDEN

The three varieties, *Officinalis Rosea*, *Officinalis Rubra* and *Officinalis Alba*, which commonly make up this section in the Peony family, represent the best in free early flowering and reliable kinds.

Officinalis Rosea. (Illustrated on front of cover.) Deep cerise pink; very striking. Price, 25 cents each.

Officinalis Alba. Pure white; large and full flower. Very popular for cemetery planting. Price, 25 cents each.

Officinalis Rubra. Deep crimson; excellent for early cut flowers. Very effective. Price, 25 cents each.

The above three Peonies in strong plants (if planted by November, will flower next spring) for 60 cents, postpaid.

STANDARD VARIETIES IN PEONIES

These varieties vary more than the *Officinalis* type in their blooming season, and are selected as a few varieties of special merit from a large list, and are offered at a price much less than the novelties, and within the reach of all.

HUMEI CARNEA—Deep pink; strong grower; large, very full, highly cinnamon-scented flowers; graceful habit. Grown largely for cut flowers.

MEISSONIER—Brilliant amaranthine-crimson, broad petals, very large and full, an extra fine red.

Price, 40 cents each. One each of the four varieties in strong plants, for \$1.25.

QUEEN VICTORIA—Large, full, compact bloom, opening flesh, changing to pure white, center petals tipped with carmine spots, a grand variety for any purpose.

ACHILLE—Floriferous, light flesh-pink, changing to blush-white, with an occasional creamy spot.

The Best Novelties in Colors—Crimson, White, Bright Pink and Light Shell-Pink ALL EARLY-FLOWERING. IF YOU WANT THE BEST, HERE THEY ARE

The following four varieties we offer as the best grown in the different colors and are not to be excelled by any other kinds in the Peony family. Apparently they are expensive, but the superior quality of these four named kinds over other standard varieties of this popular plant is greater than the difference in quality in any other family of flowers.

FESTIVA MAXIMA—This is not only the finest white in existence, but, in most quarters, is regarded as the queen of all the Peonies. Mr. Harrison says: "This flower has reached the ultimate, beyond which we cannot go." It combines enormous size with wondrous beauty, often 7 to 8 inches in diameter; color snow-white, flecked with an occasional clear purple spot on edge of center petals; in addition it is very fragrant. Price, 50 cents each.

GIGANTEA—This is one of the rarest and most sought after in cultivation. The finest of all Peonies for cut-flower purposes. It is one of the earliest to bloom, produces an enormous flower 6 to 7 inches in diameter, on long stems; deliciously fragrant. Price, \$1.25 each.

FELIX CROUSSE—All Peony enthusiasts are familiar with the fact that it is difficult to get a red Peony that is a self-color—

that is, a full, rich, even shade of red without being suffused with a shade of another color. **Felix Crousse** fills the bill. A rich, even, brilliant, ruby-red, exceptionally fiery, bright and effective; very large, full bell-shaped bloom. Unique in color. Price, 75 cents each.

MARIE STUART—Large bloom, coming in clusters; outer petals soft pink, center pink and sulphur-white; very chaste bloom. Pleases everybody. Price, 50 cents each.

Special Offer! One each of the best of Novelties, **Felix Crousse**, **Festiva Maxima**, **Gigantea** and **Marie Stuart** (\$3.10 value), for \$2.80. One of our very best offers.

NOTE—In ordering Peonies we would advise ordering them by express. You will get larger roots, which will give a much more satisfactory plant.

The Grand Novelty, THE NEW GOLDEN YELLOW CALLA

Illustrated on back of cover.

This is the great new Yellow Calla of marvelous beauty. Flowers are very large, rich deep golden-yellow, often four to five inches across the mouth, leaves are spotted with white. Such handsome foliage together with such remarkable flowers present a most striking appearance; easily grown, a grand winter flower. Don't fail to try it. Price, large flowering bulbs, 40 cents each; three for \$1.00, postpaid.

CYCAS REVOLUTA. (Sago Palm)

Illustrated on back of cover.

The Cycas makes a magnificent specimen plant, and is one of the most valuable plants grown for indoor decoration. Their heavy, glossy, deep green fronds resist alike the gas, dust and cold to which decorative plants are frequently exposed. Price, nice, small, shapely plants, 35, 50 and 75 cents; six to eight leaves, \$1.00 each; eight to ten leaves, \$1.50; ten to twelve leaves, \$2.00. Bulbs increase in size each year and leaves double in size and number. Cycas can be sent by express only.

FICUS ELASTICA—India Rubber Plant Illustrated on back of cover.

The Ficus is generally considered one of the most satisfactory, and perhaps the most popular house plant in cultivation. Its wonderfully thick leathery leaves enable it to withstand excessive heat and dryness, while its deep gloss-green foliage always presents a cheerful aspect. It is particularly adapted to house culture. There are several varieties of Rubber Plant, but the true *Ficus Elastica* is the best. Price, strong specimen plants, 40 cents each; large specimens, by express, 50 and 75 cents each.

THE NEW ELEGANT PLUMED FERN Illustrated on back of cover.

Nephrolepis Whitmanii—This is a sport from the *Pieroni* Fern, in which the plummy peculiarity of the original form is even more distinctly developed than in the original; the side pinnae being again subdivided and standing at right angles to the direction of the midrib, makes both sides of the frond equally beautiful, while, at the same time, the plant is of much more compact habit, growing only one-half as tall, but with the fronds nearly twice as wide, making it a much more desirable plant for all purposes. Price, nice, young plants, 15 cents each; larger plants, 25 cents; specimen plants, 50 and 75 cents.

The New "Christmas" Collection

15 LARGE BULBS SENT POSTPAID FOR 50 CENTS.

After careful testing, consultation with our Holland bulb growers, and painstaking study, we have succeeded in forming a collection of winter-flowering bulbs which can easily be brought into bloom at Christmas time by any amateur. This collection will give you a window garden full of brilliant, fragrant and delicate flowers for several weeks. Buy the bulbs early in the fall, and plant them at once in pots or boxes. Water them abundantly immediately after planting, cover the tops of the pots with leaves or excelsior, and place in a dark closet or cellar for four or five weeks, until the roots are well grown. Bring them out to a sunny window three or four weeks before the blooms are desired, as the tops will grow strong and rapidly after the roots are well grown.

Select Named Single Hyacinths

PRICE, YOUR SELECTION, 10 CENTS EACH.

Single Hyacinths are much to be preferred to double ones. In the double Hyacinth, whereas the single florets are doubled, they are much farther apart on the stem, and therefore do not form nearly so handsome a truss as the single varieties where the trusses are much longer and fuller. We strongly advise the single instead of the double for both bedding and pot culture.

Early Tulips

Tulips are the most satisfactory of spring-flowering bulbs. They are extremely hardy and of easy culture, blooming as freely and producing as fine flowers in a confined town garden as in a more favored place. Double and Single Tulips, when associated together and planted in front of shrubs, maintain a longer display than if either are separately planted. One of the prettiest ways to plant them is in the sod next the foundation of the house, where they will come up and bloom year after year with no care.

HARDY GARDEN LILIES

SPECIAL NOTICE

Many of the finest Lily bulbs come from Japan, and are not received in this country until November. They cannot be obtained earlier, as the bulbs are not shipped until fully matured. Where bulbs are offered for sale earlier than the latter part of November, they are bulbs which have been kept in cold storage, and thereby have lost much of their vitality, and will not grow as well as fresh bulbs. Therefore, we advise the preparation of the Lily beds or borders early in autumn, covering them with four to six inches of leaves or litter of any kind. This will keep them open, and admit of the planting of the bulbs even if not received until December.

Hardy Hybrid Perpetual Roses FOR GENERAL PLANTING

These are the tall-growing, superb June Roses, with a profusion of large, bright-colored and highly scented flowers during that month. If cut back judiciously when these flowers fade, successive stems of good flowers will follow at intervals all summer. They require rich soil, full sun and good cultivation in order to produce the grand flowers, with sturdy four to five foot stems, that Rose lovers exult over. Light pruning gives more and smaller flowers on shorter stems. All very hardy and vigorous, requiring protection only in very cold climates.

IT IS BEST TO PROTECT ALL ROSES

Although we try to carefully explain in the introduction to each family or class whether the Roses in that class are hardy or not, the safest way is to protect all your Roses, for it will do no harm to the hardiest, and where manure is used as a covering it also serves the purpose as a fertilizer.

After the leaves have fallen, give the beds a covering of manure, straw, cedar boughs, corn fodder, leaves or street sweepings, enough to keep the roots from freezing, but still not to smother the plants. In very cold localities it sometimes pays to wrap the entire bushes in straw or bend them down to the ground and fasten them to stakes driven for the purpose; or cover with boards, as the principal object is to keep the plants dry and from the freezing and thawing at times of storms and sleet and rain. But the matter of protection is not such a serious problem these days, when good new Rose plants can be obtained at a very low price. Many people feel that the blossoms produced the first season are worth many times the cost of the plants, and so buy new ones each year.

The Most Magnificent Hardy Crimson Climbing Rose in Existence

SPLENDID flowers, two and one-half inches across, perfectly double. Borne in grand clusters, completely covering the whole bush. Color pure, deep, rich crimson, far brighter and more intense than the old "Crimson Rambler," which has heretofore been the standard for brilliant color. Has handsome foliage; does not mildew, and is a most abundant bloomer. Undoubtedly the brightest and best of all Hardy Crimson Climbing Roses yet introduced; unequalled for covering porches, trellises, screens, fences, etc. Is a strong, quick grower, perfectly hardy, needs no winter protection and bears "bushels of Roses" every season without attention. The "Philadelphia" is the finest Hardy Crimson Climbing Rose yet produced. Baby Rambler

THE POPULAR CRIMSON RAMBLER—The plant is of a very vigorous growth, making shoots from eight to ten feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form; color is the brightest crimson, which remains undimmed to the end. The flowers are produced in great pyramidal panicles, or trusses, each carrying from thirty to forty blooms, the individual flowers measuring about one to one and one-half inches in diameter. The foliage is a bright green and glossy, and contrasts finely with the bright crimson of the flowers. Price, 15 cents each; four for 50 cents; \$1.35 per dozen, postpaid; two-year-old plants, 25 cents each; \$2.00 per dozen; large three-year-old plants, field grown, with canes three to five feet, 50 cents each, by express only; six for \$2.50; \$4.50 per doz.

YELLOW RAMBLER—The flowers are borne in immense clusters, after the same manner as the Crimson Rambler. The color is a decided yellow. Many Roses which are described as yellow have really only a creamy tinge, but the Yellow Rambler is clear, decided yellow. The flowers are very sweet-scented. Price, 15 cents each; four for 50 cents; \$1.35 per dozen, postpaid; large two-year-old plants, 25 cents each; \$2.00 per dozen.

SHELL-PINK RAMBLER ROSE LADY GAY—This new variety, a seedling from the popular Crimson Rambler, closely resembles it in habit of growth and general effect. The Best Red Bedding Rose of a Century
Produces a Continuous Mass of Bloom

BABY RAMBLER (Madam Norbert Levavasseur)

Dwarf, Hardy, Perpetual-Flowering Crimson Rambler.

The descriptive name of this extremely valuable new Rose, "Dwarf Crimson Rambler," seems a misnomer, yet nothing is more appropriate, for the fame of "Crimson Rambler" properly belongs to it. It forms compact bushes about two feet high when fully grown, and is fully covered with clusters of its rich crimson-red flowers throughout the season. It begins to bloom when in small pots and is practically never out of bloom for the balance of the season. Perfectly hardy, it requires no winter care, and should improve each year with good culture. The coloring is brighter and more persistent than in its parent, the "Crimson Rambler," of which it is a seedling. The size of the clusters and the number of flowers in each are the marvel of all beholders. Its use is varied so as to render it invaluable. As a bedding variety, to make a low, attractive hedge, to border a walk, for planting in cemeteries, or for growing in pots in the house, it stands alone and must find its way everywhere! Remember it is hardy and perpetual flowering. Price, 15c each, two for 25c; \$1.00 per dozen, postpaid; two-year-old plants, 35c each; three for 90c; \$2.50 per dozen.

BEAUTIFUL PALMS

The bold, majestic, graceful foliage of Palms lends a grandeur and magnificence that cannot be obtained by any other class of plants, and there is nothing so satisfactory for home decoration for the conservatory, hall or living room. Almost anyone can succeed with the varieties offered on this page. They are of easy culture, thriving best in a light, airy room and watered moderately and the leaves sponged with water every week or so. Complete directions for handling plants under above heading will be found in McGregors Guide to Floriculture, free with an order amounting to \$2.00.

KENTIA BELMOREANA

This variety is one of the best in its class; graceful habit, bright green foliage gracefully disposed. As a decorative plant for the window, dinner table or conservatory it scarcely has an equal. Price, nice bushy plants five and six leaves, twelve inches high, 35c each; larger size, fifteen to eighteen inches high, 60c each; good specimen plants, \$1.00 each, by express only.

CYCAS REVOLUTA
(Sago Palm)

The Cycas makes a magnificent specimen plant, and is one of the most valuable plants grown for the decoration of the lawn or house. Their heavy, glossy, deep green fronds resist alike the gas, dust and cold to which decorative plants are frequently exposed. Price, nice, small, shapely plants, 35, 50 and 75 cents; six to eight leaves, \$1.00 each; eight to ten leaves, \$1.50; ten to twelve leaves, \$2.00. Bulbs increase in size each year and leaves double in size and number. Cycas can be sent by express only.

PHOENIX ROEBELINI

(Grand Novelty)

A new Palm is always interesting, but when the new-comer is easily the most graceful and withal the hardiest, it is little short of sensational. Phoenix Roebelini has the grace and lightness of Cocos Weddelliana, but it is more robust in growth and has tenfold the foliage of that fine variety. Price, nice four-inch pot plants, 50 cents each; five-inch pot plants, \$1.00 each.

Ferns for the Fern Dish or Ferneries

The Beautiful Moss Fern, *Selaginella Emilliana*

A new, upright-growing moss, with numerous feathery stems branching from the base and forming a dense tuft. Well grown plants attain twelve to eighteen inches in height. Selaginella Emilliana

Pteris Tremula

(Shaking Fern.) The foliage of the *Pteris* varieties is large, very graceful. Price, 10 cents each; \$1.00 per dozen.

Onychium Japonicum

A very beautiful Fern, having long, graceful fronds. The wiry texture of the leaf makes it keep a long time; very useful to cut for vases, etc. Price, 10 cents each; \$1.00 per dozen; large size, 25 cents.

The Beautiful Silver Fern, *Pteris Argylea*

A very showy Fern, with variegated foliage; fronds large, light green, with broad band of silver-white down the center of each. Very distinct. Price, 15 cents each; \$1.50 per dozen.

Cyrtomium Falcatum

(Holly Fern)

We consider this one of the finest Ferns in cultivation to grow into specimen plants. The leaf is a rich, glossy green, and each leaflet is about the shape and size of a Rose leaf. The fronds are fine for cutting on account of their lasting quality. Price, 15 cents each; \$1.50 per dozen.

Adiantum Cuneatum Grandiceps

DECORATIVE FERNS

These beautiful plants for home decoration vie with the Rubber plants for first place in the esteem of flower lovers. They are finely cut and sometimes oddly shaped. Fronds have a graceful effect produced by few other plants. With practically the same care as given flowering plants they do exceedingly well in the parlor and conservatory. The Ferns of the *Pteris* family do as well as the *Sword Ferns*; the best varieties for the house are to be found in the *Pteris* family. The *Nephrolepis* family, of which the well-known *Boston* is a member, has furnished us so many beautiful species of late years and are succeeding so well that this family is steadily growing in popularity. The varieties we list on this page are all recommended for indoor growing in pots as specimens or for ferneries for table decoration. Ferns should be planted in a good light soil with some sand and leaf mold added; see to it that wherever planted they have good drainage.

Nephrolepis Whitmanii

The best of the Crested Ferns. (See cut.) We never sold a Fern that has created so much favorable comment as the *Whitmanii*. It seems to delight in hot weather and hence seems to be perfectly at home here in the summer. *Whitmanii* is of dwarfer growth, but equalizes matters by compactness and a wider, stockier shape. **Price, nice young plants, 15 cents each; larger plants, 25 and 50 cents each, postpaid. Specimen plants, 75 cents.**

Nephrolepis Piersoni

Elegantissima or
Tarrytown

This is a sport from the *Pierson* Fern, in which the plummy peculiarity of the original form is even more distinctly developed than in the original; the plant is of much more compact habit, growing only one-half as tall, but with the fronds nearly twice as wide, making it a much more desirable plant for all purposes. **Price, nice young plants, 15 cents each; larger plants, 25 and 50 cents each, postpaid. Specimen plants 75 cents.**

Fern Nephrolepis Whitmanii

Nephrolepis Exaltata Bostoniensis

(The Boston Fern)

This popular Fern has proved one of the best decorative plants of recent introduction.

Excellent for making large specimen plants, also very fine for hanging baskets. **Price, nice young plants, 10 cents each; larger plants, 25 and 50 cents each.**

Nephrolepis Piersoni

(Ostrich Plume)

An entirely new form of the famous *Boston* Fern. The pinnae subdividing, making miniature fronds which are superimposed on the main fronds, looking as if two or even three were condensed in one. They are graceful beyond description—feathery, plummy, nothing describes them better than "Ostrich Plumes," which they very much resemble. **Price, nice young plants, 15 cents each; larger plants, 25 and 50 cents.**

Nephrolepis Scotti

It is interesting a condensed form of the *Boston* Fern. The fronds of the plant described average about twenty inches in length and three inches in width at the widest point; the pinnae are very closely set, so that they overlap, making a more finished frond than the parent. **Price, nice young plants, 15 cents each; larger size, 25 and 50 cents.**

Begonia Rex

KING OF THE BEGONIAS

We make a specialty of this marvelous family of plants and offer a collection of the most varieties, including new and rare kinds that cannot be had elsewhere. They require light soil composed of rich loam, loose woods earth and sharp sand. They like a moist, warm atmosphere, and should be kept shaded during the summer. Do not allow the sun to strike the leaves when wet, or do not over-water. Be sure to try a few of these wonderful plants.

Speculata Quite a novelty in the Rex type. Leaves are in the form of a grape-leaf. Color is a bright green, with a background of chocolate; veins of a light pea-green, the whole leaf spotted with silver. The individual pink blooms are lifted high and spray-like quite clear of the foliage. **Price, 10 cents each; three for 25 cents.**

Duchess de Brabant This fine variety is very distinct, having a dark greenish-brown center, with a broad silver band enclosed with a dark green edging. The edge of the leaf is smooth and very pointed. **Price, 20 cents each; three for 50 cents.**

Lord Palmerston One of the best and easiest to grow of all the Rex Begonias. The leaves are extra large with a dark bronze center, silver band and irregular bronze border, blotched and specked into the silver. **Price, 20 cents each; three for 50 cents.**

Magnifica This beautiful variety is quite different from any variety we catalogue. The leaves grow to an immense size; color a rich dark chocolate-brown tinted with dark green. This variety is one of the darkest of all the Rex family. **Price, 20 cents each; three for 50 cents.**

Roi Ferd Major Extra large leaf of fine silver, small dark starry center, and edge embroidered in the same dark shade. Extra fine. **Price, 15 cents each; three for 40 cents.**

Ruth Findlay A very short, bushy-growing variety. The most part of the leaf, is of a silver color streaked with dark green on the edges. A very pointed leaf with a hairy growth on the edges. **Price, 15 cents each; three for 40 cents.**

Lesoudsii This is the finest and largest of any of the Rex family. It is impossible to describe in words the beautiful markings of this magnificent Begonia. It is a cross between Begonia Diadema and a Rex variety, but retains in a marked degree the Rex character. **Price, 15 cents each; three for 40 cents.**

Perle de Paris The entire leaf of this fine variety is of a silver color slightly notched, and resembles the old variety, Silver Queen. A good variety for large specimen plants. **Price, 15 cents each.**

Choice Fruit for Fall Planting

FRUITS OR TREES BY EXPRESS OR FREIGHT

The following nursery stock is offered by Mail or Express as noted. The varieties offered are tested standard kinds and for reason of lack of space we do not attempt any descriptions. As our nursery department is separate and distinct from our greenhouses, it is necessary that all nursery stock be shipped direct from the nursery, and all orders, therefore, for trees and fruits of express size will be sent separate from bulbs or greenhouse plants and be under separate transportation charges. There is no time better than fall for planting and if a little extra soil is placed around the base of the plant, pressing in shape of a cone, so as to protect the roots from winter rains and sudden and severe changes in freezing and thawing, all planting should do well. This also protects them from being moved about by heavy winds. As mentioned above, remember that fruits and trees under this heading, which will be of as large size as offered by any nurseryman, are sent by express of freight separate from any other part of your order and under separate transportation charges.

FRUITS OR TREES BY MAIL POSTPAID

Under this heading we offer you grafted and true-to-name fruits and trees of a smaller size than referred to above, but they will be found much cheaper and all transportation charges will be paid. It is a slower way than buying larger trees, but is the cheapest way if you are willing to wait an extra year or two. Our steadily increasing trade for mailing size has given us reason to believe that the smaller stock has been found very satisfactory. We think plants under this heading will especially appeal to those in distant states and where it is not convenient to call for express or freight shipments.

NO PREMIUMS ON FRUITS OR FRUIT TREES

Prices on nursery stock are placed very low and we cannot allow premiums to be selected on orders for items listed on this page.
